

ABDULLAH S

CAREER OBJECTIVE

Dynamic and motivated student eager to leverage academic background, a passion for learning and strong analytical skills like C, Web Development, Python. Looking to work for a dynamic organization with opportunities for career growth.

CERTIFICATIONS

- **Python Fullstack** | Pantech e-learning
- **Introduction to Internet Of Things** | Nptel
- **Full Stack Development** | Edunet
- **Network Essential** | Naan Mudhalvan
- **Neural Network** | Naan Mudhalvan

SOFT SKILLS

- Communication
- Collaboration
- Adaptability

LANGUAGES

- English: (Working Proficiency)
- Tamil: (Native, Fluent Proficiency)

📍 Tirunelveli , Tamil Nadu

EDUCATION

- (2025)
BE COMPUTER SCIENCE AND ENGINEERING
Government College Of Engineering, Bargur
CGPA – 7.99
- (2021)
HSC
Rose Mary Mat.Hr .Sec. School, Tirunelveli
Percentage – 94.5

SKILLS

- C
- Python
- MySQL
- Web Development
- Data Structures
- Debugging
- Machine Learning (Basics)

PROJECT

1. Diabetes prediction

Diabetes prediction project aims to develop a machine learning model to identify individuals at high risk of developing diabetes based on various health indicators and demographic data.

This involves data preprocessing, feature selection, model training, and evaluation to ensure accurate and reliable predictions.

2. Heat exchanger control based on AI

The heat exchanger control project utilizes artificial intelligence to optimize the operation and efficiency of heat exchangers by dynamically adjusting control parameters in real-time.

This approach leverages machine learning algorithms to predict and respond to varying thermal loads, ensuring optimal performance and energy savings.
